

CORNELL ATHLETE HEALTH PASSPORT

Your Health. In Your Pocket.

Health independence begins here. Build your Athlete Health Passport, add it to Apple Wallet, and start a Healthograph that grows with you for life.

 Done in under 3 minutes · Guided by SAiRA

HOW IT WORKS

1

Start

Scan the team QR code.
SAiRA says hello.

~15 SEC

2

Basics

A few quick questions —
SAiRA fills the rest.

~90 SEC

3

Goal

Name one health goal for
your season.

~30 SEC

4

Wallet

Add your Passport to Apple
Wallet. Done.

~30 SEC

MEET SAiRA

Your AiTHOS health agent.

SAiRA guides your 3-minute setup, helps you prep for sports-medicine and health appointments, and explains the basics of owning your health — like a smart teammate, not a clinic form.

A guide, never a doctor — your care team stays in charge.

-  **Own your health identity**
From parent-managed to athlete-owned.
-  **Walk in prepared**
Prep questions before every appointment.
-  **Build a lifelong asset**
Every update grows your Healthograph.
-  **Carry it anywhere**
Apple Wallet pass & mobile card.

You're in control — always.

You own your Passport and decide what's shared. **Coaches and athletic staff never see your private health data.** No medical records to upload — just the basics. AiTHOS adds a readiness layer; it never replaces Cornell Health, Sports Medicine, or your athletic trainers.

Build your Passport today.
